

The Collection

Explore the natural
beauty of outdoor
living

Established since 1989 we are a family run business and over the years we have built up a reputation for outstanding quality and design, as well as excellent attention to detail.

We manufacture deliver and install our range of exquisite Garden Buildings nationwide, and we also offer a bespoke service creating your own individual building to your design and specification.

Take a look through our brochure where you will find a selection of our hand crafted garden buildings to suit your every need.

CREATED by Nature
DESIGNED by Creatives
MADE by Experts

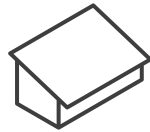

Garden Office Specification

Our Contemporary Garden Offices are 2.5m high, so do not usually require planning permission. Installed as standard with a 75mm acoustic insulation to the walls with a vapour barrier, e.g. 38mm frame to include, 6mm exterior ply, vapour barrier, 20mm lathe with external cladding, includes an internal boarded finish to the walls and roof.

Floor

A rigid construction made from 18mm tongue and groove boards on 65mm x 40mm tanalised bearers.

Roof

EPDM rubber roof on 18mm OSB boards on 125mm x 44mm roof purlins.

Doors

UPVC or aluminium doors available in various styles.

Windows

UPVC or aluminium windows available in various styles.

Glass

Double glazed, 28mm as standard.

Timber Options

Tanalised

18mm hidden nail profile redwood cladding is a high quality timber which has had a preservative vacuum injected into the heart of the wood, protecting it from the inside out and is guaranteed against rot for 15 years.

Thermowood

18mm hidden nail profile cladding is a specially kiln heated redwood timber. The kiln process removes moisture and resin, producing a timber with reduced moisture content and enhanced physical properties, including a resistance to mould and decay.

Cedar

18mm hidden nail profile cladding, one of the highest quality timbers that we provide; it is as durable and sustainable as it is beautiful. The rich colour and solidity add outstanding quality and an extensive life span.

Abodo

18mm Radiata Pine from New Zealand, is one of the highest quality timbers that we provide. It is thermally modified meaning, enhanced stability and has class 1 durability, providing an outstanding quality and extensive life span.

Millboard Composite

Millboard is the finest wood-look composite cladding. Hand moulded from original pieces of Oak, it boasts refined timber grain that mimics natural timber but is engineered to offer an enhanced experience.

Naturally Sustainable

All of our products are made from the finest FSC certified timbers from managed forests. We choose only the best materials ensuring a lifetime of service and use.

Outdoor
buildings
made of
beauty

Millboard

Millboard combines the natural beauty of real wood with the high performance of polyurethane, a material widely recognized for its strength. Polyurethane is used in many industries where durability and strength is required, eliminating the inevitable rotting, warping and deterioration of natural wood.

We are an Approved Millboard Installer

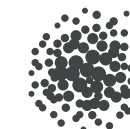

- Carefully chosen for your specific project
- Trained to Millboard's standards
- Knowledgeable about all Millboard products
- Use a Millboard trained professional to quote and install your project

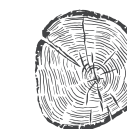

Key features

Does not warp or rot

No leaching or staining

Moulded from real oak

Resistant to decay

UV & weathering stability

Board and Batten

Contemporary and traditional outdoor living spaces

The Board and Batten profile creates a truly unique balance for both contemporary and traditional designs. With a tongue and groove profile that only requires fixings through the tongue, so the fixing is hidden.

Finishes available

Antique Oak Burnt Cedar Golden Oak Smoked Oak

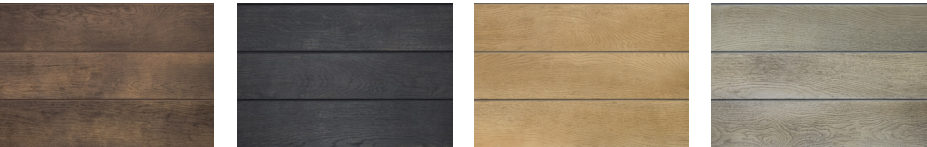

Shadowline

The finest authentic outdoor living

The Millboard Envello Shadow Line cladding board gives a clean authentic timber look. The increased width of the Shadow Line board compared to standard timber boards means there is larger grain detail. This gives an enhanced visual impact, without risk of the board twisting or warping over time.

Finishes available

Antique Oak Burnt Cedar Golden Oak Smoked Oak

Handcrafted Log cabins

Stunning, natural and versatile; the log cabins from Tunstall Garden Buildings have been designed to bring a unique style to your garden or business. Solidly built from a choice of quality timber, our log cabins are guaranteed for 5 years. There are so many reasons to erect a timber cabin in your garden; extra room to entertain, a practical home office space, or a lucrative holiday accommodation investment on your plot of land. Our log cabins can be designed to suit your requirements, contemporary and classic, built from 44mm interlocking Redwood, FSC certified timber.

Summer Houses

Whether you are interested in our summer houses for additional storage during the colder seasons, or you want an outdoor reception area for all your garden parties, we can build a bespoke summer house that ticks all the right boxes. Great in the summer, and just as wonderful in the winter, summer houses make graceful additions to any garden. Scenic, picturesque and adaptable, our multi-purpose summer houses can be used across the seasons.

Timber Workshops

Our timber workshops have exceptional workmanship and design and are supplied by industry leaders in this field. We have show sites in Staffordshire where you can view the quality of our products first hand. You can purchase a standard timber workshop or we can design a building to suit your requirements though our bespoke design service. A timber workshop can be supplied and delivered anywhere in the UK. All are manufactured in the UK where our workmanship offers the right solution for your timber workshop.

Garages

Our garages are created to enhance your property and create an ideal storage and work space. Here you will find a selection of wooden garages, made for traditional vehicle storage. Our timber garage range is designed to last, and all of our wooden garages have been built to very high specifications. They take pride of place in your garden, and we're very pleased to present to you, a strong and sturdy building. At Tunstall Garden Buildings we design and make beautiful timber garages, the superior alternative to a concrete construction, with advantages of a warm and dry atmosphere.
